## CAPABILITIES STATEMENT

### COMPANY HISTORY

With an up bringing in commercial, military, & residential construction Brandon Holloway started his construction company in 2005 building custom homes after work and during the weekends for local clients. In the early years he focused on Residential Custom Homes. This allowed him to develop his customer services skills as well as establish his business. With limited resources and basic business knowledge, Brandon Holloway worked hard to over exceed his customers expectations. The simple strategy of focusing on the customers needs no matter the size of the job, was key to obtaining larger jobs; as well as giving Holloway Construction, Inc. a reputable reputation as a general contractor in the local market. All of the business to date has been referred by satisfied customers. In 2014, Brandon Holloway became a certified STAR dealer; which has given us early input in the design phase of the project. Thus, ensuring we are able to deliver a Design-Built project that meets our clients need. In the last five years, the company has completed multiple commercial projects. Holloway Construction, Inc. is now focusing on expanding into the governmental construction market. After becoming SBA 8(a) certified as well as CA State DBE certified, Holloway Construction Inc. is looking forward to working with and offering excellent customer service and satisfaction to Public, Private and Governmental clients in need of all types of construction related projects.
